

Home & Building Modifications That Improve Lives

Since 1988, MyCIL has been helping seniors and adults with disabilities stay in their own home.

If you'd like to stay in your own home but require environmental change to accommodate your physical challenges, we can help.

We also can help your business become ADA-compliant.

Quick Turnaround and Superior Service

As a Center for Independent Living, over 51% of our team members have a disability. We know what it's like. That's why we work quickly to make lives better ... it's our passion.

If you're on a waiver and need your home modified to meet your unique physical challenges, we'll work with your service coordinator to make it happen.

We also offer free consultations for businesses and homeowners who are not on a waiver.

Experts in Building Modifications

MyCIL Home Modification experts have nearly 75 years' combined experience. Our ADA-compliant services include:

- Widening doorways for wheelchairs
- Installing grab bars in bathrooms
- Installing walk-in/roll-in showers and tubs
- Installing handrails and glides on stairs
- Installing convenient ramps
- Renovating kitchens, such as adding bathrooms

"The MyCIL Home Modification experts were always professional, friendly and sensitive to our family's needs. Their workmanship is excellent."

~ Art, Donna and Joey Seymour

"Not only do they do exceptional work, but they made the whole process enjoyable."

~ Nancy and Ed Osburn
